The screenshot displays the GitHub commit history for a repository. The interface is divided into a sidebar on the left showing a commit graph and a main area on the right showing a list of commits. The commits are ordered from newest at the top to oldest at the bottom. The graph shows a main branch (blue) and a feature branch (green). The commit list shows the following details:

Daniel:

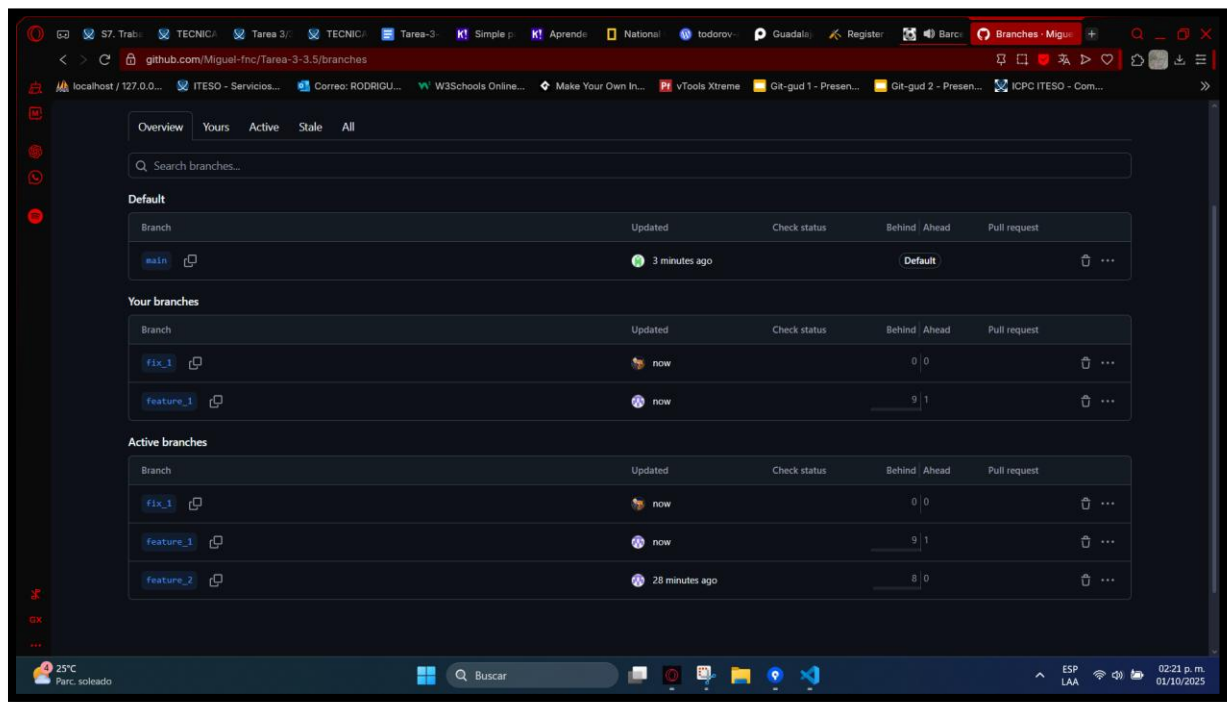

The image shows a screenshot of the Visual Studio Code (VS Code) interface. On the left, the 'File Explorer' sidebar is visible, showing a project structure with a folder named 'scripts' containing a file 'script.js'. The 'script.js' file is selected. The main editor area on the right displays the contents of 'script.js'. The code is as follows:

```
1 + let num_a = 5,  
2   num_b = 10;  
3 + let res = num_a + num_b;  
4 + console.log('Resultado', res);  
5 + alert('Tarea3/3.5');
```

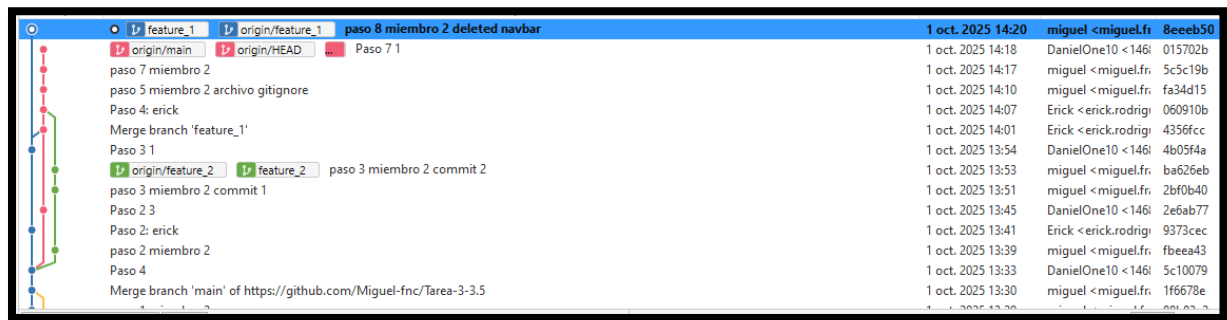

The code is written in JavaScript and includes comments in Spanish. The editor has a dark theme, and the code is syntax-highlighted. The line numbers 1 through 5 are visible on the left side of the code editor.
